

Apartment Smart Distribution Box Renovation Costs

Overview

Basic: 100A indoor replacement — Panel, new breakers, basic wiring; 6-8 hours; total \$1,200-\$2,000; includes standard permit where required. Key cost drivers include panel amperage, indoor vs outdoor location, wiring length, and whether a full panel upgrade or rerouting is needed. Typical installation time is 4-12 hours for a straightforward replacement; complex rerouting or an upgrade to a large subpanel can push this to 16 hours or more. $\text{data-formula} = \text{labor_hours} \times \text{hourly_rate}$ > Typical. Main Breaker: Replace your main breaker for between \$500 and \$2,000. This crucial hub regulates the power between your panel and circuits. Main Lug Panels: Installing this subpanel in place of your fuse box, also known as a downstream panel or secondary panel, costs \$400 to \$1,750 to install. They manage energy flow like traffic controllers, prevent electrical fires, and increasingly connect to smart home systems.
