

Bulgaria s upgraded four-person information panel

Overview

The NATO Communications and Information (NCI) Agency has begun work on a project to upgrade several of Bulgaria's air defence radars, aircraft and naval vessels to the new NATO Combat Identification System. It is important for the government's proactive policy to that effect to continue. This was stated by Prime Minister Dimitar Glavchev at the Georgi Benkovski Air Force Academy in Dolna Mitropolia where he. The development of command, control, communications and information systems is a priority in the development of the Bulgarian armed forces, established in the Governmental Program for NATO Accession 1 and confirmed by Parliament with the adoption of the Military Doctrine of Republic of Bulgaria. In time, Mode 5. As a valued NATO Ally and EU member state, Bulgaria has strengthened its trans-Atlantic orientation in recent years, but work remains to strengthen trust in its democratic institutions while expanding and diversifying its economy. Years of pro-Russian propaganda, continued challenges to the rule of. This is a list of the equipment currently in use by the Bulgarian Armed Forces. guidance and commercial partnerships.
