

Cables in Yemen

Overview

In the latest collision between geopolitics and the physical internet, three major submarine cables in the Red Sea were cut last month likely as a result of attacks by Houthi militants in Yemen on passing merchant vessels. Undersea cable cuts in the Red Sea disrupted internet access in parts of Asia and the Middle East, experts said Sunday, though it wasn't immediately clear what caused the incident. There has been concern about the cables being targeted in a Red Sea campaign by Yemen's Houthi rebels, which the. Beirut, Lebanon - Officials in the United States say undersea telecommunications cables in the Red Sea were cut on Tuesday, disrupting 25 percent of data traffic between Asia and Europe. Others have accused the groups of making direct threats against cables in the area. A Houthi fighter holding a Kalashikov assault rifle and phone in Sana'a, Yemen's capital.
