

Comoro Fiber Optic Cable Management Frame

Overview

CommScope's QNG4 frame delivers the crucial elements of fibre cable management: connector and cable accessibility, bend radius protection, cable routing paths and physical protection. Ready your network for the High Speed Migration CommScope offers a variety of easy-to-install frames, racks and cabinets specially engineered for network equipment and fiber cable management. The Cable Management frame fits several types of splice closures on the market. With innovations such as CommScope's access trays, universal adapter packs, cabled modules and MPO. The Propel XFrame[®] solution is a radical departure from rigid and proprietary frames. Simplified and streamlined, agile and open, it enables faster, more flexible deployment and management of high-density Optical Fiber Frames while optimizing your data center space and internal resources.
