

Compatible 800G Access Switches from Nordic Suppliers

Overview

We offer best-in-class switching platforms like the Celestica DS4101 and DS4100 — 800G-capable, Tomahawk 4-based switches built for speed, reliability, and efficiency. Factory-direct optical transceivers and high-speed cables, from legacy links to 1. At scale, the biggest problems come from what you don't control, not what you deploy. OEM firmware updates silently break. NADDOD Arista OSFP-800G-2xSR4 compatible OSFP-800G-2xSR4 is an 800Gb/s Ethernet twin-port OSFP transceiver supporting 2x400Gb/s SR8 multimode, parallel transmission through dual 4-channel MPO-12/APC connectors at 400Gb/s each. Featuring two internal transceiver engines, built-in Coherent VCSEL &. Built to power the most demanding AI training, inference, HPC, and cloud workloads, the Asterfusion CX864E-N Open Ultra Ethernet Switch is a game-changing data center solution. A next-generation, highest-capacity switch for data center spine use case. Breakout options include 2 x 400G, 4 x 200G, and 8 x 100G per port, with a maximum of 160 logical ports. Offers reduced. Cisco N9364E-SG2 switches are 64-port 800G fixed switches.

Article Content

Data Center Switch

Watch the video to learn how DS5000 delivers consistent, high-performance and low latency, helping you stay ahead of the demands of today's evolving digital landscape.

Cisco N9364E-SG2 Switches Data Sheet

Cisco N9000 Series Switches address the need for high-performance, power-efficient, compact switching in network infrastructures and are designed to support high-density 800G fabrics ...

2024-010-AS9817-640_Accton R03 20240703

The Accton AS9817-640 is an 800G high-performance switch platform for modern data center applications. The switch provides line-rate L2 and L3 switching across the 64 x 800 GbE ...

Optical Transceiver Solutions for Cloud Performance

800G Platforms Proven at scale across hyperscale and AI networks. A mature, high-volume portfolio of 800G optical transceivers and copper interconnects, delivering broad ecosystem compatibility, ...

800G Data Center Switches

We have local language and currency support in each of our 28 locations, ensuring you always have access to friendly customer support to deliver your hardware solutions regardless of your location.

800GbE Switch 64x 800G OSFP 51.2Tbps Enterprise SONiC

Delivering a massive 51.2 Tbps switching capacity and featuring 64x800G ports, it scales effortlessly to support ultra-large data centers with performance rivaling InfiniBand networks.

Arista OSFP-800G-2xSR4 Compatible Coherent VCSEL & Broadcom DSP 800G ...

Featuring two internal transceiver engines, built-in Coherent VCSEL & Broadcom DSP, it is compatible with Arista 7060X6-64PE switch and ensures stable, high-speed optical connectivity with low error ...

Supermicro SSE-T8164 800G Ethernet Switch

The SSE-T8164 comes with 64 OSFP 800G ports in a 2RU form factor to meet the leaf, spine and super spine datacenter architectures. The interfaces provide flexibility to meet a variety of speeds and use ...

Celestica 800G Switching Solutions for High-Performance Data Centers

We offer best-in-class switching platforms like the Celestica DS4101 and DS4100 — 800G-capable, Tomahawk 4-based switches built for speed, reliability, and efficiency.

Celestica 800G Switching Solutions for High ...

We offer best-in-class switching platforms like the Celestica DS4101 and DS4100 — 800G-capable, Tomahawk 4-based switches built for speed, ...

AIS800-320

A next-generation, highest-capacity switch for data center spine use case. Breakout options include 2 x 400G, 4 x 200G, and 8 x 100G per port, with a maximum of 160 logical ports.

Arista OSFP-800G-2xSR4 Compatible Coherent VCSEL ...

Featuring two internal transceiver engines, built-in Coherent VCSEL & Broadcom DSP, it is compatible with Arista 7060X6-64PE switch and ensures stable, high ...
