

Costa Rica Imported Cybersecurity Equipment SFP

Overview

The initiative will help Costa Rica's Ministry of Public Security establish a Cyber-Security Operations Center by 2026. The Ministry of Science, Innovation, Technology and Telecommunications of Costa Rica (MICITT) has received a first package of specialized equipment. This delivery is part of a European Union cooperation project, led by FIAP (with technical support from Spain's National Cryptologic Center (CCN)). Three years ago, in April 2022, a ransomware attack perpetrated by the Conti ransomware group devastated Costa Rican government operations, paralyzing tax systems, delaying health care services, and forcing the nation to declare a state of emergency - the first such declaration by a democratic. Following the launch of U. combat operations in Iran, Americans worldwide and especially in the Middle East should follow the guidance in the latest security alerts issued by the nearest U. We are committed to protecting the citizens, economy, and stability of our country elecommunications (MICITT, from its acronym in. SAN JOSE, Costa Rica - The United States and Costa Rica announced yesterday a collaborative security initiative that will strengthen Costa Rica's cyber defenses against threats from malicious actors. During a recent meeting at the.
