

Custom Process for Low-Temperature Resistant Vehicle-Mounted Fiber Optic Channels

Overview

This standard practice provides detailed information and guidance to personnel concerned with ensuring standardization of fiber optic cable topologies (optical fiber cabling and associated components) on military mobile vehicles used in air, land, and sea. This standard practice provides detailed information and guidance to personnel concerned with ensuring standardization of fiber optic cable topologies (optical fiber cabling and associated components) on military mobile vehicles used in air, land, and sea. The AFL LA-Series artic low temperature loose tube fiber optic cable is designed with low temperature and environmentally harsh environments in mind. This product line is suited for use in applications that require long-term network reliability in areaw where standard OSP fiber optic cable would. This Department of Defense Standard Practice is approved for use by the DLA Land and Maritime Columbus, Defense Logistics Agency, and is available for use by all Departments and Agencies of the Department of Defense. If our selection of stocked patch cables does not meet your needs, we also offer custom patch cable services. If you find your. f robust industrial optical fiber cables. IRGUARD®XP resists those harsh elements. Because. Custom fiber optic cable assemblies play a critical role in keeping complex systems running smoothly across industries like defense, telecommunications, aerospace, medical, and industrial automation.

Article Content

Custom Fiber Optic Patch Cables

Please use the form below to build and order your custom cable. If you find your needs are not met by the options in the form below, please contact us and we will design a specialty cable to meet your ...

UF A CT R AIRGUARD® XP Fiber Optic Cabl

AIRGUARD® XP cables are extremely rugged, indoor/outdoor loose tube cables providing unsurpassed performance in the most challenging applications where extreme exposures to chemicals, oils, ...

Fiber Optic Assembly

We leverage our QMS excellence, expertise, commitment to DFM collaboration and process enhancement, specialized capital equipment/assets, and our highly skilled technicians to achieve ...

Customized Fiber Optic Projects

Our customized fiber optic projects have already optimized automobile production lines, networked data centers, digitized municipal utilities and modernized transport companies.

Custom Fiber Optic Cable Assemblies for Harsh ...

Discover custom fiber optic cable assemblies that ensure reliability in defense, telecommunications, and other demanding industries. Made in USA.

Custom POF Cables

Fully customizable Plastic Optical Fiber (POF) assemblies and harnesses are a rugged, cost-effective solution offering maximum flexibility for optical cabling in many industrial, medical, transportation, ...

Reliability engineering in optoelectronic devices and fiber optic ...

In this chapter, we go through the process flow for qualifying optoelectronic devices for sale, as part of the new product development process.

FIBER OPTIC CABLE ASSEMBLY MANUFACTURABILITY AND ...

The purpose of this document is to define the standards and guidelines that should be followed in order to fabricate a harsh environment fiber optic cable assembly.

LA Series Arctic Low Temperature Loose Tube Cable

The optical fibers high protected in gel-filled tubes and surrounded with a jacketing system comprised of two layers of highly flame and chemically resistant low-toxicity (LSZH) polymers and a high ...

STD-1678-4C

This standard practice provides detailed information and guidance to personnel concerned with ensuring standardization of fiber optic cable topologies (optical fiber cabling and ...
