

Denmark Certified DAC High-Speed Cable 1G

Overview

LightSpeed™ DACs are a low-cost way to utilize the SFP ports on our fiber optic products and standard 1G network equipment. DACs (Direct Attach Cables) are a great solution for in-rack or other short connections that would otherwise require fiber optic cabling. Nexus is Dyrholm Audio's new flagship series. Developed without compromise and with full focus on maximum signal integrity, stability, and musicality. Each Nexus cable is the result of long-term development, extensive listening tests, and extreme precision in the selection of materials and. Direct Attach Copper (DAC) cables are factory-terminated twinax assemblies that integrate transceiver-style connectors such as SFP/SFP+, SFP28, QSFP+, QSFP28, QSFP-DD and OSFP at both ends, creating a cost-effective, zero-power electrical link for short-reach, high-speed networks. With the features of the low cost, low power consumption and low latency, it is an alternative to optical transceivers for short reach links in high-speed interconnect applications such as Data Center, HPC and enterprise network. 1G SFP to SFP DAC Twinax Cable available in 0. It strikes a balance between performance, cost, and maturity, making it an attractive option for servers, storage, and switches. But the choice of cable for 10G links is.

DAC Cable, Copper Cable, Direct Attach Cable, Twinax Cable

With the features of the low cost, low power consumption and low latency, it is an alternative to optical transceivers for short reach links in high-speed interconnect applications such as Data Center, HPC ...

LightSpeed 1G SFP Fiber Optic DAC (Direct Attach Cable)

LightSpeed™ DACs are a low-cost way to utilize the SFP ports on our fiber optic products and standard 1G network equipment. DACs (Direct Attach Cables) are a great solution for in-rack or other short ...

Dyrholm Audio - High-end audio cables

Dyrholm Audio power cables are designed to deliver clean, stable, and uncolored power to your system. Each cable is hand-built in Denmark using top-quality components such as Furutech, carefully ...

High-Speed Cable Assemblies

These cable assemblies support aggregate data rates of 25, 50, 100, 200, 400 and 800 Gbps. We offer custom cabling solutions and corresponding pluggable I/O cages and connectors.

Direct Attach Cable (DAC) Assemblies

High-speed I/O passive cable assemblies that can deliver data rates as high as 400 Gbps with a variety of lengths or customized options for greater design flexibility.

DAC Cables | Direct Attach Copper 1G-800G Passive Twinax for ...

Philisun offers high-performance DAC Cables from 1G to 800G, including Direct Attach Copper solutions with SFP+, QSFP28, and QSFP-DD connectors. Designed for low-latency, short-reach links in data ...

SFP+ DAC Explained: Passive vs Active, Lengths, and Buying Guide ...

An SFP+ Direct Attach Copper (DAC) is a twinax copper cable with SFP+ connectors permanently attached at both ends. It is designed for short-range, high-speed connections between ...

Direct Attach Copper (DAC) Cables

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.
