

## Direct Fusion Optical Cable

### Overview

Designed to meet the demands of today's data-intensive world, these cables are comprised of multiple optical fibers bundles in a flat ribbon format that is high density, lightweight, and durable. Ribbon cables offer higher fiber counts and greater fiber density than any other cable construction designed for the outside plant (OSP), up to eight times the highest-fiber-count loose tube cable. Offered dry or gel-filled in plenum, riser with outside plant (OSP) and indoor/outdoor LSZH ratings – ideal for enterprise or industrial applications. Offered dry or. Precision Fiber Products, Inc. We specialize in fiber optic interconnect components, including fiber optic cables, connectors, cable splicing, ferrules, and more. Ready to get started?

Get a quote now! In just a few steps, you can receive a quote. Utility Direct burial fiber optic cables are resistant to UV radiation, abrasion, and fungus to endure the tough conditions of underground installations. These cables are engineered to resist moisture, temperature fluctuations, and physical damage, ensuring reliable performance in even the most. Flat Ribbon Direct Buried Cables: These specialized flat ribbon cables are tailored for direct burial, boasting thicker and stronger jackets for enhanced crush resistance. They incorporate moisture-resistant materials to prevent water ingress and feature reinforced elements for improved handling. Start here. Check each product page for other buying options.
