

Dutch Electricity Company Optical Cable

Overview

An optical cable and fiber unit product category for routing into micro-ducts through pneumatic routing technology. The TWD (Thick walled duct) is composed of thick and strong microtubes, and this provides strong protection against soil pressure while the thin outer sheath helps fast and easy operation at installation site. Variety of TWD line-up enables a cost-effective construction of optical infrastructure. TKF Green YMK: The first green installation cable now available. Stay up to date with all our upcoming events. TKF connects society with innovative connectivity solutions for digitalization. FibreMax specializes in manufacturing advanced aramid cables, utilizing patented technology that enhances their strength and durability. That's why, for the landmark 45th edition of GITEX GLOBAL, we had showcased the core of enterprise; Our Future-ready Data Centre. Our network is making this possible for more and more people. We are continuously expanding our.
