

Fiji Certified Edge Data Center IP67

Overview

The EFIC-6000-12th is housed in an IP67-rated aluminum alloy enclosure, which provides full protection against dust, high-pressure water jets, and even immersion. 18, 2025 (GLOBE NEWSWIRE) -- Micropolis Holding Co. ("Micropolis" or the "Company") (NYSE: MCRP), a leading UAE-based developer of autonomous mobile robots and AI-driven security solutions, announced the launch of a new industrial-grade, IP67-rated Edge Computing. When Sealevel engineered its most powerful and rugged computer yet—built on the NVIDIA Jetson Orin Industrial platform—the system was designed to deliver real-time artificial intelligence (AI) in places where dust and water are constant possibilities. In these environments, proven resilience. Customers that have implemented private Cloud Enforcement Nodes in their environment: you may need to take into account additional address ranges not represented here. Your hardware, powered by our enterprise-grade edge facilities. Private, lockable. A IP67 computer features fully sealed enclosures with the ability to withstand immersion in water up to 1 meter, making them ideal for harsh industrial and outdoor environments. As we explore the key features and real-world applications of this rugged system, you'll see why the EFIC-6000-12th is more than just a.
