

Gbic optical modules meet standards

Overview

GBIC shall meet the electrical and optical requirements, including amplitude, eye diagram, jitter, and other parameters, specified for the standards with which the GBIC claims compliance. For the guideline on third party components, see Section 6 of. For ONS Family optics product and compatibility information, please click here For High-Density Fiber Patch Panel, Simplex, MPO and Breakout Cables Portfolio Data Sheet, please click here Upgrade to 100G or 400G optics and save. Multimode and DWDM versions are also available. The units are compatible with Cisco switches and will show reports of errors, stats. This design guide provides the information needed to incorporate OptixCom's fiber optics transceiver products in the customer's system. For your convenience, we specify them by their technical specifications so that you can order them according to their demanded properties.
