

Installation of Smart Distribution Cabinets in Spain

Overview

Contact our industrial automation company, and get more information about our manufacturing service for electrical panels and industrial cabinets. Custom design and installation. As part of our partnership with SACEN, we offer the implementation of the Smart Cabinet (SC) Series of cabinets, designed to meet the needs of the Mobile Telephony operation and installation market. The SMART CABINET offers an innovative end-to-end solution that provides significant benefits: Smart. Its been designed to simplify the preparation of quotations and to define the configuration of metal cabinets and combination units. Used to house electrical or electronic switchgear, control gear and equipment necessary to supply, distribute and transform electricity. Personalized service for the manufacture in Electroingenium. Iberapa digitizes its production processes.
