

Integrated cable tray cold aisle high-precision manufacturer

Overview

Altimir Data Center Solutions designs, fabricates, and installs high quality, custom engineered Hot Aisle and Cold Aisle containment systems for data centers worldwide. Our high-quality, high-performance server aisle containment systems are helping redefine data center airflow. Modern data centers demand infrastructure systems that support extreme cable density, high power loads, rapid expansion, and zero tolerance for downtime. From cable management to airflow containment and structural mounting components, every element must be engineered for performance, durability. Atkore's US Tray was established in 2012, as an American manufacturer of made-to-order cable trays that are built per NEMA standards and certified by UL. If you are an organization seeking technical guidance on a large project, Vertiv can provide the support you require. For more than 30 years, our engineered solutions have powered reliability, scalability.
