

Iraq Certified 1G Active Optical Device

Overview

The Oakdoor 1G Diode is an advanced cybersecurity hardware device designed to ensure a one-way flow of data, specifically tailored for deployment in the most secure defence, security, and critical national infrastructure environments. ISO/IEC 27001 is an international standard for managing and processing information security. This standard is jointly developed by the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC). It sets out requirements for establishing. Generic 10/100/1000BASE-T SFP SGMII Copper RJ-45 100m Transceiver Module (Copper, RJ-45, 100m) Generic Compatible 10/100/1000BASE-T SFP SGMII transceiver from QSFPTEK supports up to 100m link lengths over a copper connection via an RJ-45 connector. SFP SGMII is designed for 10/100/1000Base-T. Juniper's portfolio of qualified 10G and 1G optical transceivers are low-cost multipurpose modules available in footprint-optimized form factors for deployment across ACX, EX, MX, PTX, and QFX product lines. All Juniper 10G and 1G optics are compliant with key industry standards and specifications. Pre-Inspection, Testing and Issuing of Certificates of Conformity Programme of Goods Imported into Iraq From the 1st January 2020, Exporters/Importers trading with Iraq need to comply with the requirements of Pre-Inspection, Testing and Issuing of Certificates of Conformity Programme of Goods. Thanks to Kestrel, a Wide-Area Motion Imagery (WAMI) system developed by Logos Technologies, Inc. forces are now protect-ed by a literal eye in the sky in Iraq and Afghanistan. Quality and Support: Deploy mission-critical network infrastructure with confidence.

Article Content

1G SFP Optical Transceivers | Transceiver Modules

Store.QSFPTEK 1G SFP transceivers provide wide selection for various Gigabit Ethernet applications, such as 100+ vendors compatibility, copper/fiber, SMF/MMF, 100m to 80km.

Shop for 100/1000BASE Optical Transceivers

Our 1GB SFP transceivers are 100% compatibility tested in our US based lab, and certified for use with over 90 OEMs including Arista, Cisco, Dell, Intel, Juniper, Mellanox, Nokia.

Oakdoor 1G Diode

The Oakdoor 1G Diode is an advanced cybersecurity hardware device designed to ensure a one-way flow of data, specifically tailored for deployment in the most secure defence, security, and critical ...

Iraq CMC Type Approval | NanoTech Solutions

Our Iraq Type Approval service is specifically designed to guide you through this process, ensuring your devices meet all necessary requirements for market entry.

10G/1G Optics | HPE Juniper Networking US

Juniper's portfolio of qualified 10G and 1G optical transceivers are low-cost multipurpose modules available in footprint-optimized form factors for deployment across ACX, EX, MX, PTX, and QFX ...

Cisco Transceiver Modules

Cisco Transceiver Modules - Learn product details such as features and benefits, as well as hardware and software specifications.

Iraq LS-SC31551G-40I 1.25G SFP SC 1310nm-TX/1550nm-RX 40km ...

Every Link-PP optical module undergoes a thorough qualification process with state-of-the-art equipment, guaranteeing superior quality and dependable operation.

Certificate of Conformity for Exports to Iraq

Intertek has been appointed by the Central Organization for Standardization and Quality Control (COSQC) as a Certification Body authorised to issue Certificates of Conformity (CoC) for ...

Data Center Transceivers & Cables

Arista offers a broad portfolio of high performance optical transceivers and copper cables for datacenter and campus networks, with speeds ranging from 1G to 800G, and reach from 1m to 80km+.

EYE IN THE SKY

Designed to be mounted on an aerostat, Kestrel is a full-motion, electro-optical/infrared camera system, optimized to track vehicles, detect moving dismounts, and identify enemy targets with...
