

Israel High Voltage Common Busbar

Overview

Robust HV busbar and enclosed busbar solutions up to 35kV, designed for substations, mining, and offshore platforms. High Impedance Differential Protection Relays MiCOM P72x high impedance differential protection series provides high impedance differential protection for generators, reactors, motor and busbar applications. This product ensures easy connectivity with rear cable entry and front-accessed terminals, making it a cost-effective solution for power. To connect various high voltage (HV) components to the HV system, TE also delivers a wide variety of busbars. In cooperation with the customer, these can also feature TE's Bus Bar Insulation Tubing (BBIT). Busbars provide a safe HV connection on shorter distances. Mouser offers inventory, pricing, & datasheets for Busbars Fuse Holders Accessories. Powerful, flexible, cost-efficient, and sustainable, SIVACON 8PS busbar trunking systems are ready for tomorrow's tasks today and enable you to raise your power distribution to a new level of performance.
