

Israeli New Fiber Optic Sensor Company

Overview

Israeli startup Prisma Photonics, which develops fiber-optic sensing technology for large-scale infrastructure monitoring, has raised \$30 million in a round led by Israeli defense-tech fund Protego Ventures — signaling the company's growing foothold in defense and. Israeli startup Prisma Photonics, which develops fiber-optic sensing technology for large-scale infrastructure monitoring, has raised \$30 million in a round led by Israeli defense-tech fund Protego Ventures — signaling the company's growing foothold in defense and. The Israeli startup's Hyper-Scan technology turns existing fiber-optic cables into kilometer-scale sensors. The round, led by Protego Ventures, accelerates its global expansion across energy and defense sectors [Above: Uvision Air's HERO 120 loitering munition drone] Israeli startup Prisma. Meet Rami, Shani and Teddy that work here Sol Chip is a worldwide leading energy harvesting company that offers a unique maintenance-free everlasting solar solutions and IoT communication platforms. Sol Chip's technology provides power and communication solutions for disruptive fields such as. Israeli startup Prisma Photonics raises \$30 million to expand its smart monitoring technology. Photo: INESC TEC at English Wikipedia, CC BY 3. 0, via Wikimedia Commons The Israeli company Prisma Photonics, a company specializing in intelligent fiber-optic monitoring based on. We're proud to announce that FAST Laser GROUP and Omnisens SA from Switzerland will deploy a fiber sensing, monitoring system based on DAS technology (Distributed Acoustic Sensing). The DAS system will monitor approximately 50 km of a heavy-duty moving system. The financing brings the company's total funding to \$80 million. Full list of Israeli high-tech.

Article Content

On Prisma Photonics

Prisma Photonics develops a hardware-free solution that transforms existing optical fiber networks into intelligent sensors capable of detecting events like equipment failures, intrusions, leaks, or ...

Prisma Photonics raises \$30 million to expand AI-based infrastructure ...

Prisma Photonics, a Tel Aviv-based deep-tech company that uses artificial intelligence to transform existing optical fiber into vast real-time sensor networks, has raised \$30 million in a growth ...

Backed by Israeli defense tech fund, Tel Aviv smart monitoring startup ...

Tel Aviv deep-tech startup Prisma Photonics, a developer of optical fiber sensing technology for monitoring critical infrastructure, has raised \$30 million in fresh capital, led by Israeli...

Israeli startup Prisma Photonics secures \$30 million to expand its ...

The Israeli company Prisma Photonics, a company specializing in intelligent fiber-optic monitoring based on artificial intelligence, announced a new \$30 million round of funding, led by ...

Prisma Photonics raises \$30 million to expand AI-based ...

Prisma Photonics, a Tel Aviv-based deep-tech company that uses artificial intelligence to transform existing optical fiber into vast real-time sensor ...

Prisma Photonics Raises \$30M to Scale AI-Driven Fiber Sensing ...

TEL AVIV, Israel, Oct. 16, 2025 — Prisma Photonics, a deep-tech company adapting existing optical fiber into an advanced infrastructure monitoring platform, closed a \$30 million growth round.

16 Top Sensors Companies in Israel · May 2026 | F6S

Detailed info and reviews on 16 top Sensors companies and startups in Israel in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

Prisma Photonics raises \$30 million to bring its AI-driven fiber ...

Israeli startup Prisma Photonics, which develops fiber-optic sensing technology for large-scale infrastructure monitoring, has raised \$30 million in a round led by Israeli defense-tech fund ...

Fiber Optics | IL Photonics

IL Photonics imports and sells a broad range of Fiber Optic products in Israel. The following display presents our suppliers in this category, highlighting the main features of their products. Click on a ...

Fiber Sensing

FAST Laser is a professional fiber optic company, and Omnisesns is a world leader in high-performance fiber optic monitoring. This joint venture between the two companies is a breakthrough deploying the ...

Prisma Photonics Raises \$30M to Scale AI-Driven Fiber Sensing ...

Founded in 2017 and headquartered in Tel Aviv with offices in the United States and Europe, Prisma Photonics is led by an expert team with a proven track record in building and scaling ...
