

Japan After-Sales Service Optical Cable 2 Cores

Overview

We specialize in special cables for industrial use and robotic applications, high-frequency cables, and cables with customized specifications. We handle products from all Japanese manufacturers and can offer a wide range of products, and we also have a lineup of products. Furukawa Electric Group specializes in telecommunications and offers a range of fiber optic cables and components as part of its information and communication solutions. Its small diameter and lightweight construction allow it to be installed quickly and efficiently using mechanical splicing technology. The cable is strengthened with Phosphated Steel Wire and is. From Fiber Optic to Copper Cables, from the most innovative products to the smartest solutions, from industries such as Broadcast or Enterprise to Industrial or Data Center, OCC has the connections you need. Optical fibers were formerly considered expensive.

Article Content
