

# Latvian Core Switch Hot Selling Model

## Overview

MikroTik, a Latvian network equipment manufacturer, has unveiled a new addition to its line of 100 Gigabit switches – the CRS510-8XS-2XQ-IN. The market is segmented into core, distribution, and access switches, with core switches playing a pivotal role in managing high network traffic volumes and ensuring seamless connectivity within large-scale networks like data centers and enterprise environments [3, 5]. The new switch boasts a combination of two 100 Gigabit QSFP28 ports and eight 25 Gigabit SFP28 ports, making it a versatile fit for almost any server room or. Google's service, offered free of charge, instantly translates words, phrases, and web pages between English and over 100 other languages. MikroTik develops and sells wired and wireless network routers, network switches, access points, as well as operating systems and auxiliary software. \*. ECS5550 series offers 24/48 10GbE SFP+ ports and 6 100GbE uplinks, ideal for carrier/enterprise aggregation or small data centers. It supports IPv6 management, security, multicast control, and advanced QoS, ensuring high availability and simple management. The ECS5550 series consists of two.
