

# **Low-temperature resistant optical power divider for Omani mines**

## **Overview**

These dividers are designed for use with high impedance digital voltmeters. All HVD dividers are housed in a polycarbonate cylinder containing a matched set of precision metal film resistors which have a temperature coefficient of less than 25 ppm. We supply a wide range of Mechanical, Electrical, Instrumentation, Measuring & Testing products to Oil & Gas, Petrochemical, Industrial, Engineering and Construction Industries. Hereby we kindly request you to send us the requirement for the same in order for us to offer you the best. The MAX5490 provides an extremely low resistance-ratio. MACOM's power combiners and dividers are used in aerospace and defense, wireless, and wireline communications applications. 50 Ohm power dividers / coaxial splitters from Pasternack can be purchased in 2 Way, 3 Way, 4 Way, 6 Way, 8 Way or 12 Way port designs. The insertion loss ranges from 0. Shop DigiKey's large in-stock selection of RF Power Dividers/Splitters.
