

Nicaragua Optical Cable Distribution Frame Manufacturer

Overview

Bwnfiber has its own fiber optic distribution frame plant to produce the optical distribution frame and other fiber optic products, exports to USA, UK, France, Argentina, Ecuador, Mexico, Chile, Germany, Brazil, Czech Republic, Saudi Arabia, Spain, Portugal, etc at a competitive price. UnitekFiber offers a variation of ODF optical fiber distribution frames, such as 24 cores, 36 cores, 48 cores, 72 cores, 96 cores and 288cores. What is ODF?

An optical distribution frame (ODF) is a frame used to provide cable interconnections between communication facilities, which can integrate. ODF, or Optical Distribution Frame, is a high-capacity, high-density frame used for fiber optic cable connection, distribution, dispatch, and management. It provides a central location for managing and organizing fiber optic cables. This means it is easier to connect and maintain them.
