

Ordering fiber optic splice closures

Overview

Different networks have different needs when it comes to fiber optic joint closures. At Multilink, we have a variety of closures to meet these needs, including inline types and drop terminals. In our selection, you can find the following termination. Different networks have different needs when it comes to fiber optic joint closures. At Multilink, we have a variety of closures to meet these needs, including inline types and drop terminals. In our selection, you can find the following termination enclosures and splice boxes for use with different cable sizes and numbers of drops: Optima™ : The Op. The securing, storing and supporting of fiber optics and splices makes up an important step of fiber optic deployments in the field. Whether connecting to aerial or underground cables, telecommunications companies rely on fiber optic closures to protect and facilitate fiber splices and regular maintenance in Fiber to the Home (FTTH) and other indoor. With more than 35 years of experience, Multilink is a leader in the telecommunications industry. We make innovative products and help our customers succeed by providing high-quality equipment that's laboratory tested and proven to perform. Telecommunications companies often have unique requirements for their equipment. If you have a specific fiber.
