

Price of intelligent bundled pigtails for oil and petrochemical applications in Kazakhstan

Overview

PEI-Genesis offers a range of connectors and cable assemblies for both traditional energy, such as oil & gas, and alternative energy, such as solar, applications. For this market, PEI-Genesis carries a wide array of connectors from the most trusted manufacturers, including Amphenol, ITT Cannon, Anderson Power Products, Cinch Connectivity Solutions, Souriau by Eaton, LEMO, Dialight and Trolex Oil and gas connectors are among the most robust and rugged, and. We have years of experience serving the oil & gas industry assembling custom cables including Measurement-While-Drilling (MWD) assemblies such as the battery, interconnect, gamma, and transorb pigtails. We can enable you by supplying you with MWD pigtails or any custom cables that will enhance your. Lifeguard Technologies is the World's Leading provider of safety hoses. We supply to the leading petrochemical and industrial gas companies – many of whom have established standards, specifications and protocols for our technology. Click on any of the following links for the product and. Rigid pigtails are the most common and least expensive pigtails, made from annealed copper, stainless steel, or brass heavy wall tubing. These pigtails are ideal for all gas services. ||**Registered Trademark of Air. KONEX by ProRack Gas Products features a full offering of flexible hoses, pigtails and fittings for the gas industry. Products are available for high pressure gas cylinder filling, manifold systems, liquid cryogenic transfer, high pressure tube trailers, and point of use distribution systems.

- Designed for use between cylinder and piping system
- Maximum Pressure: GFPT and GFPS Series, 3000 psi; GRPS Series, 4500 psi
- Temperature Range: GFPS and GRPS Series, -325°F to 850°F (-200°C to 454°C); GFPT, -65°F to

Cylinder Lead Configurator Tool | Weldcoa

This new on-line selection guide is a software tool intended to provide some guidance for high pressure gas lead (hose/pigtails) selection based on cylinder application, pressure, safety measures and medium.

Applications & Specifications | LifeGuard Technologies

We supply to the leading petrochemical and industrial gas companies – many of whom have established standards, specifications and protocols for our technology. Click on any of the following links for the ...

Pigtails

Pigtails are flexible hoses designed for gas systems at pressures up to 3000 PSIG. Harris® offers pigtailed hoses with a variety of end fittings, including common CGA connections with integral non-return ...

Pigtail, Hoses, & Fittings

KONEX by ProRack Gas Products features a full offering of flexible hoses, pigtailed hoses and fittings for the gas industry. Products are available for high pressure gas cylinder filling, manifold systems, liquid ...

Pigtails

GasFlo specializes in the fabrication of brass, stainless steel and exotic metal pigtailed hoses for filling, bulk/continuous supply and point of use applications.

Extending the life of steam methane reforming pigtailed hoses

The failure of outlet pigtailed hoses is a common cause of plant downtime and creates a potential risk to personnel. That increases the total cost of ownership of the asset.

Pigtails | Genstartech

Genstar Technologies Company Inc. is a global provider of high-quality pressure regulators, fittings, valves, welding apparatus, and various gas control and handling devices.

Oil & Gas Connectors & Cable Assemblies | PEI-Genesis

PEI-Genesis offers a range of connectors and cable assemblies for both traditional energy, such as oil & gas, and alternative energy, such as solar, applications.

MWD Pigtails

We have years of experience serving the oil & gas industry assembling custom cables including Measurement-While-Drilling (MWD) assemblies such as the battery, interconnect, gamma, and ...
