

The distribution box has a converter in its wiring

Overview

This converter is a circuit-protected, battery-powered unit that bypasses the electrical routes that are used by a basic wiring harness. Quickly and easily install a 4-way trailer connector on your vehicle with this custom harness. Connector plugs directly into existing wiring. A PD4600 or a PD4655 is not an entire distribution panel, it is a power converter only. Are you replacing the entire housing, 120v AC breakers, 12v DC fuse panel and all?

If so, Why, and what brand are you removing?

This is a PD4600 series power converter, it is intended as a replacement in various. The SRV series Converter/Charger is a “switch mode” type and is designed to be maintenance-free with no user serviceable components. The Converter/Charger is integrated with a 120 VAC and 12 VDC Distribution Panel that allows easy. Always connect the battery terminals before interfacing the onboard distribution unit. Whether in a home or an industrial facility, this box keeps your electrical setup organized, functional, and efficient. Wire color: The neutral wire is blue, and the color of the phase wire (A phase is yellow, B phase is green, and C phase is red).
