

Where is the optical cable factory in Southern Europe

Overview

The “drawing tower” is the heart of the FOS optical fibre production, where glass made at the factory is melted and dripped (or “drawn”) into the hair-thin fibres that form the cable backbone of the internet across the world - and that will deliver on the promises of 5G. The “drawing tower” is the heart of the FOS optical fibre production, where glass made at the factory is melted and dripped (or “drawn”) into the hair-thin fibres that form the cable backbone of the internet across the world - and that will deliver on the promises of 5G. The optical fibre plant is one of Prysmian's three fibre plants in Europe, and Scafuro, its general director, is in charge of making sure this cutting-edge factory stays competitive in all aspects of the complex production process. FOS produces about 50% of all the optical fibre made in Europe by.
